I, NAME, a complainant in this class action complaint, declare that the following is true and correct to the best of my knowledge, beliefs and upon information. I further declare that the above named persons, individuals, institutions, fictitious entities and governmental agencies, hereinafter referred to as "Criminal Participants," are acting contrary and against my God-given, Natural, Common Law, California State and U.S. Constitutional, and International rights, as well as against the rights of thousands of other residents and citizens of this country, by meticulously promoting and forcing through an elaborate conspiracy of corrupt acts the changing, modification and revision of local, county, state and federal laws, while at the same time misleading the general public through propaganda, in order to make vaccination mandatory for all U.S. citizens and residents.

I join Ricardo Beas in his original Vaccine Class Action Complaint (DOJ I.D.# 144-11-0) against the above named Criminal Participants, submitted July 2, 2017 by email and by regular mail to Attorney General Sessions, HHS Secretary Price and Dept. of Education Secretary DeVos. I adopt Mr. Beas' class action complaint and everything therein by reference and incorporation. I further adopt in the same manner any future filings in any form, written, mailed, faxed or emailed by Mr. Beas to the DOJ or any other governmental department and agency related to this complaint.

Through this civil and criminal rights violation complaint, I and all in my class, request that the U.S. Department of Justice, the U.S. Department of Health and Human Services, and the U.S. Department of Education, separately or together, do the following:

1. Investigate all the claims in my/our complaint.
2. Establish a grand jury to present evidence against the above named Criminal Participants.
3. Take legal action against the Criminal Participants, both through civil action and criminal prosecution to the highest extent of the law, including fines, jail time, and where applicable the death penalty. Applicable crimes to include genocide and crimes against humanity, and conspiracy to do the same. Legal actions in the United States should not bar any criminal actions in international courts of justice similar to those proceedings carried out in the Nuremberg trials.
4. Stop all funding of California state institutions, including the departments of health and education, until such entities change their policies and start allowing unvaccinated children to attend schools and employees to work in any area without the need or requirement of mandatory vaccination. Specifically, that any California state funding from the U.S. federal government associated with the departments of health and education be halted until SB 277 is repealed or revised to allow the personal and religious beliefs exemptions to compulsory vaccination in order to attend school or work in any employment position in the state.

5. That the U.S. Department of Justice move to eliminate the existing Vaccine Court so that vaccine manufacturers can be held liable for any damages caused by their products, as do all other manufacturers of medications and medical devices. And
6. That the U.S. Department of Justice, through the funds collected by imposition of fines on any or all Criminal Participants, compensate parents of children who were injured by vaccines in a fair and equitable manner, and that the claims of all those denied such justice under the Vaccine Court that their cases be further investigated in the light of the evidence provided in Mr. Beas' complaint, and that they be allowed to bring their actions outside of the vaccine court, as would be allowed against any manufacturer liability lawsuit.
7. Optional and IF applicable: Reimbursement for all expenses related to any homeschooling, such as lost wages, time and gas, books, child care, etc.

RESPECTFULLY SUBMITTED,

---
