

Attention:  
Mr. Robert De Niro

---

Dear Mr. De Niro,

I want to thank you for what you have done, to put yourself and your career on the line to expose the obvious fraud of the CDC concerning vaccines and the CDC's complicity with Big Pharma.

Your first interview with the Today Show regarding the movie Vaxxed was simply one of those things that us in the anti-vaccine movement (especially mandatory/forced vaccines) were waiting for, a person of your stature having the guts and moral decency to stand up against an obvious injustice. You jumped from a screen hero to a live one, for all of humanity's benefit.

In the Today Show you implied that the CDC was protecting Big Pharma, meaning, they promote their vaccines, justify their supposed safety, and attack those that oppose their view. That is only one side of the coin of the CDC, which is in reality a private corporation, acting as a government agency, a de facto health agency.

***The other side of the CDC is where they protect Big Pharma's products, in particular those that "cure cancer" (SIC, they don't cure, they destroy the immune system) by finding and attacking any non-orthodox holistic and homeopathic treatments that have easily and inexpensively cured cancer, pursuing (the CDC and other federal government agencies, AMA, etc.) harassing users, their manufacturers, their promoters, destroying their careers, jailing them, and banning the treatment's use. Examples of that are Royal Raymond Rife and Harry Hoxsey, or the prohibition of Laetrile and other natural cures.***

One of these cures, for most all diseases, which has been attacked by orthodox medicine and the authorities, is **Chlorine Dioxide**, named **MMS** by its discoverer Jim Humble (discoverer to the effect that he was the first one promoting it as a cure for human disease). This substance cures cancer, AND IT CURES AUTISM! This has been proven time after time by the person that became famous for using it to heal the symptoms of autism, her name is Kerri Rivera. As you have done for humanity, now I offer to help you heal your son Elliot and your family as a whole.

MMS (referred to as CD, for chlorine dioxide, in Kerri's book) helps and attacks/destroys/removes all the symptoms known as autism: viruses, bacteria, Candida (yeast), parasites, heavy metals, inflammation and food allergies.

**Think of this:** if you place all animals that live in the ocean on land, they will die. If you place all the animals that live on land in the ocean they will die. So, it is not a matter of which animals can or cannot survive; it is what their environment is. In our case "the environment" is our body's immune system, if it is working, no pathogen can live in it. That is what MMS does, it creates the environment that kills all pathogens, while not being harmful to any non-pathogen cells, bacteria, etc. Even Louis Pasteur, the father of immunology and promoter of vaccines conceded that the present approach to treat viruses individually is wrong, as he said in his deathbed, ***"(Claude) Bernard is right. The microbe is nothing; (human) terrain is everything."***

The reason MMS has been attacked is because it is not patentable, it has no serious side effects, and it costs pennies for a daily recommended dose and you can do it at home, no doctor needed. Attached you will find a paper I wrote on this product, as well as some testimonials from Kerri's book, "Healing the symptoms known as Autism." I have contacted her, advised my plan to contact you and she offered to send you a copy of the book. If you want it let me know or write her directly at [kerririvera@yahoo.com](mailto:kerririvera@yahoo.com).

As a note, Kerri does not sell MMS, there are many independent sellers where you can obtain it for about \$25 for a 4 oz. kit (two bottles, MMS and activator), equal to about 2,400 doses (3 MMS activated drops), and you only need 8-10 doses a day).

My document has many links to sources for all info provided so to make it easy for you to review those links I have uploaded all the attached files on my website, [www.CafePeyote.com/Vaccines](http://www.CafePeyote.com/Vaccines). There you will find a video of Kerri speaking at the AutismOne conference in Chicago, 2015, describing this product and its results.

I would like nothing more than to see your son get better, and help make sure that this vaccine-created Autism epidemic is destroyed from the roots.

Please review these documents, get the book for you, your wife and son and contact Kerri, who will gladly help guide you through the protocols.

Thank you for all you have done and will continue to do. I am at your service.

Respectfully,

Ricardo Beas
